

SISTEM PENGURUSAN ASET UPNM MANUAL PENGGUNA

PENCETAK LABEL TSC TA210

Langkah Menggunakan Pencetak Label TSC TA210

Langkah-
Langkah

1-Memasang *Ribbon* dan Label

2-*Install Software* TA210

3-Konfigurasi TA210 di PC

4-Uji melalui SPA UPNM

1-Memasang *Ribbon* dan Label

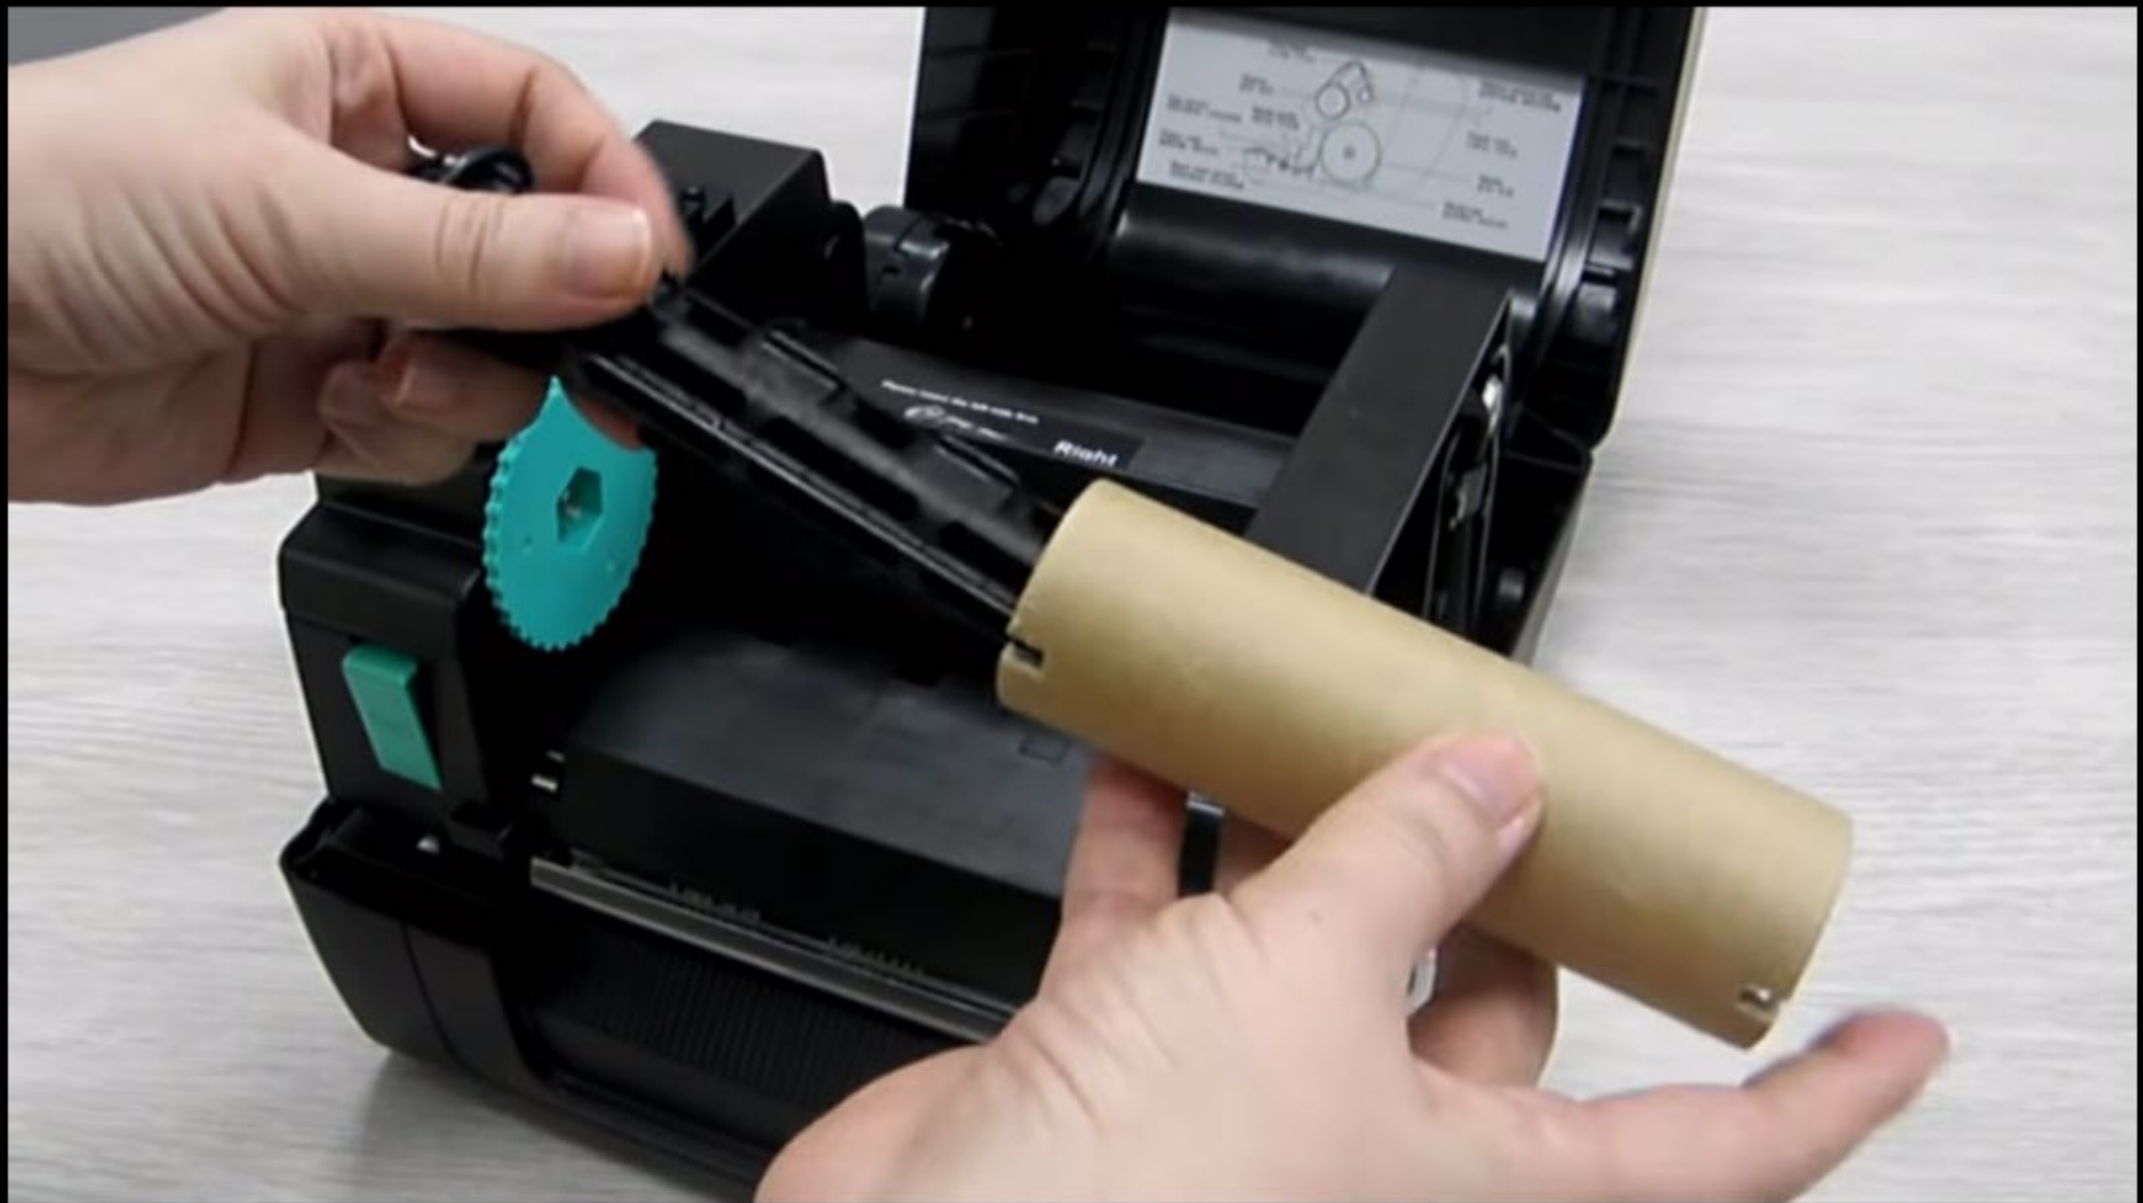

1a-Memasang *Ribbon*

<https://www.youtube.com/watch?v=eLWD1enDDEc>

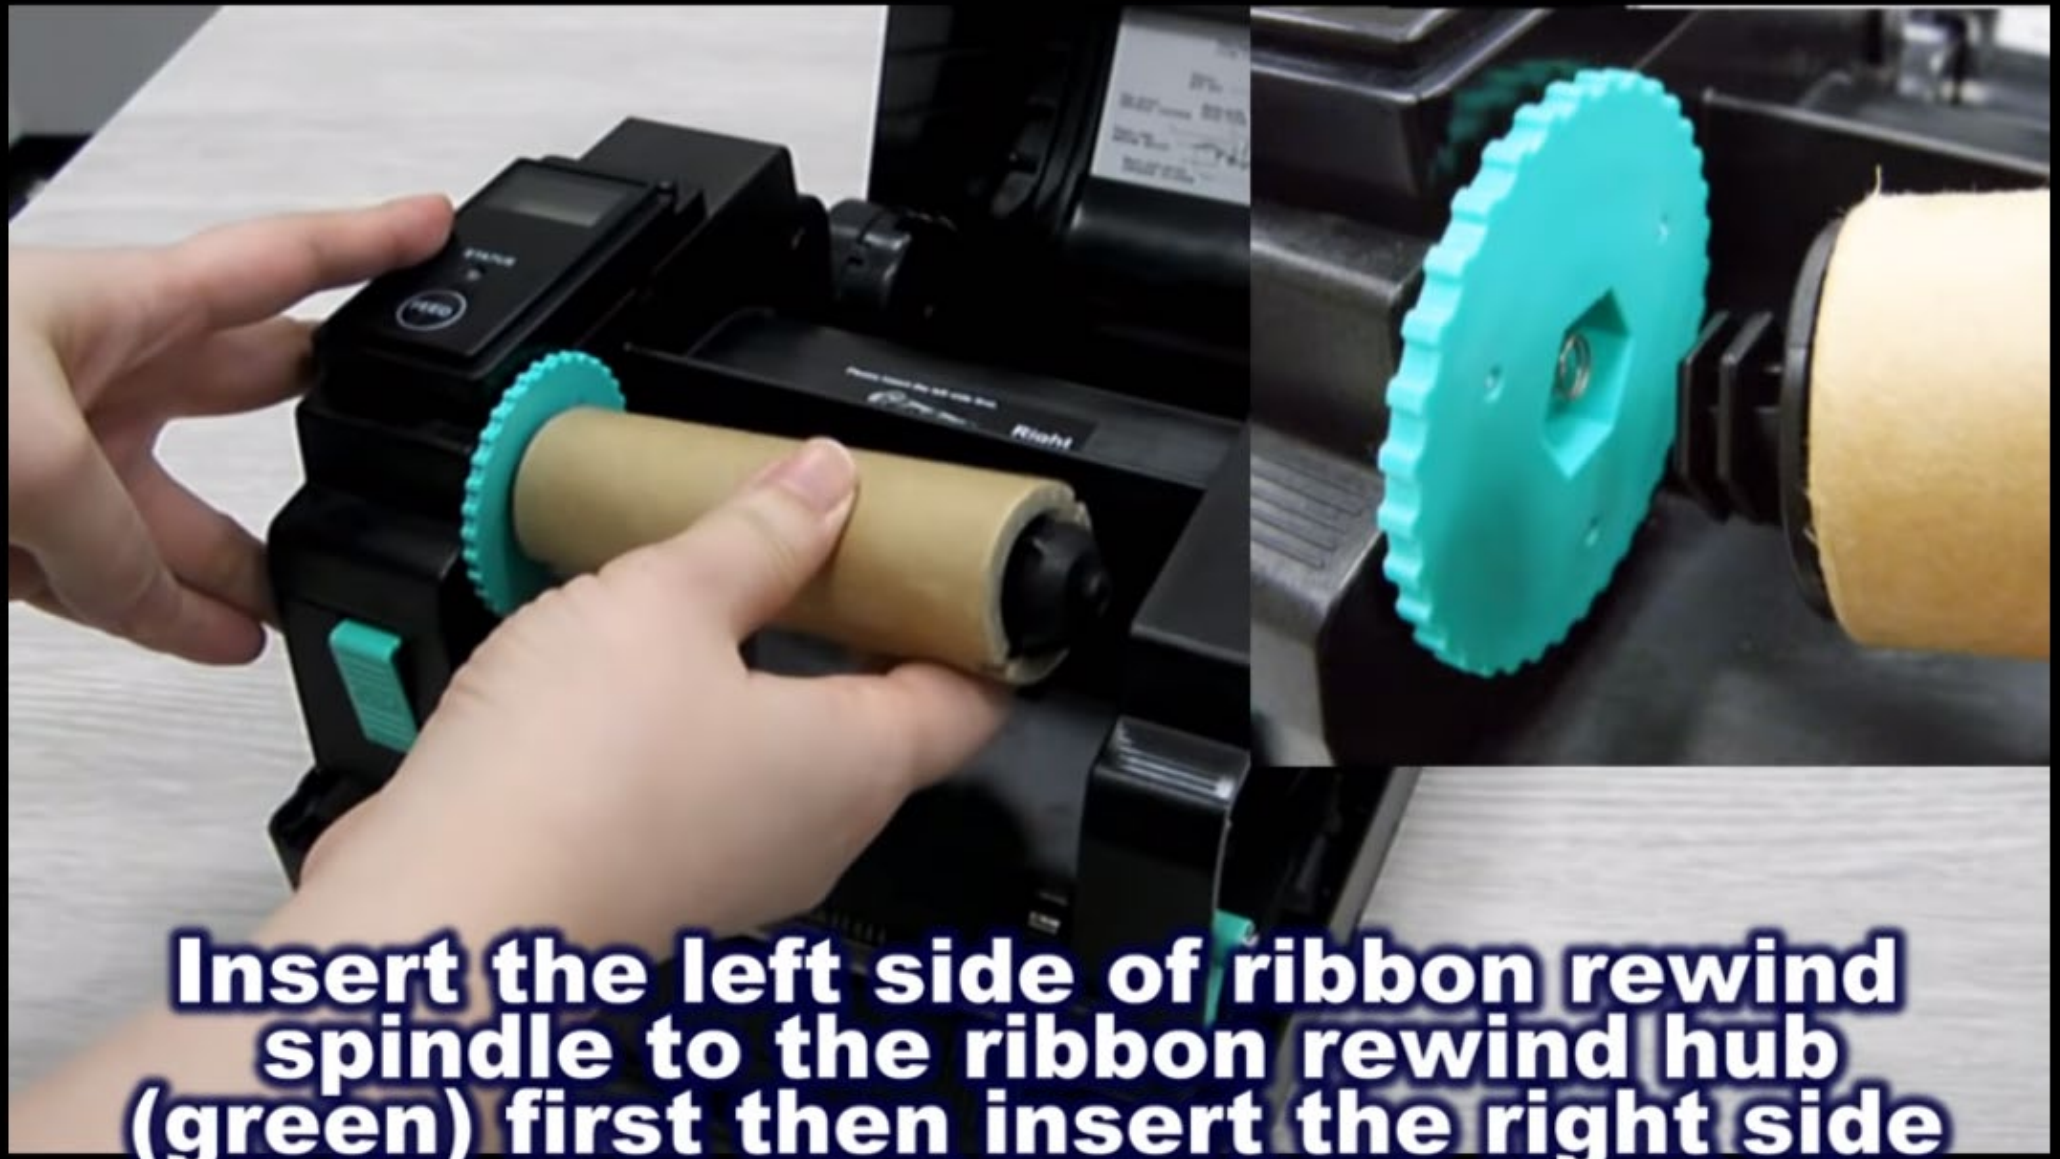

Open the printer top cover by pressing the top cover open tabs located on each side of the printer.

Insert the paper core to the spindle.

Insert the left side of ribbon rewind spindle to the ribbon rewind hub (green) first then insert the right side of ribbon rewind spindle to the hole at the right side of ribbon mechanism.

Push the print head release button to open the print head mechanism.

Insert the ribbon to the spindle.

Insert the left side of ribbon supply spindle to the ribbon supply hub (green) first then insert the right side of ribbon supply spindle to the hole at the right side of ribbon mechanism.

**Pull the ribbon through the print head
and then stick the ribbon onto the ribbon
rewind paper core.**

Pull the ribbon through the print head and then stick the ribbon onto the ribbon rewind paper core.

Turn the ribbon rewind hub until the black section of the ribbon covers the print head.

Close the print head mechanism by both hands and make sure the latches are engaged securely.

1b-Memasang Label

<https://www.youtube.com/watch?v=YHRegwDT348>

Insert the paper roll into the media supply spindle.

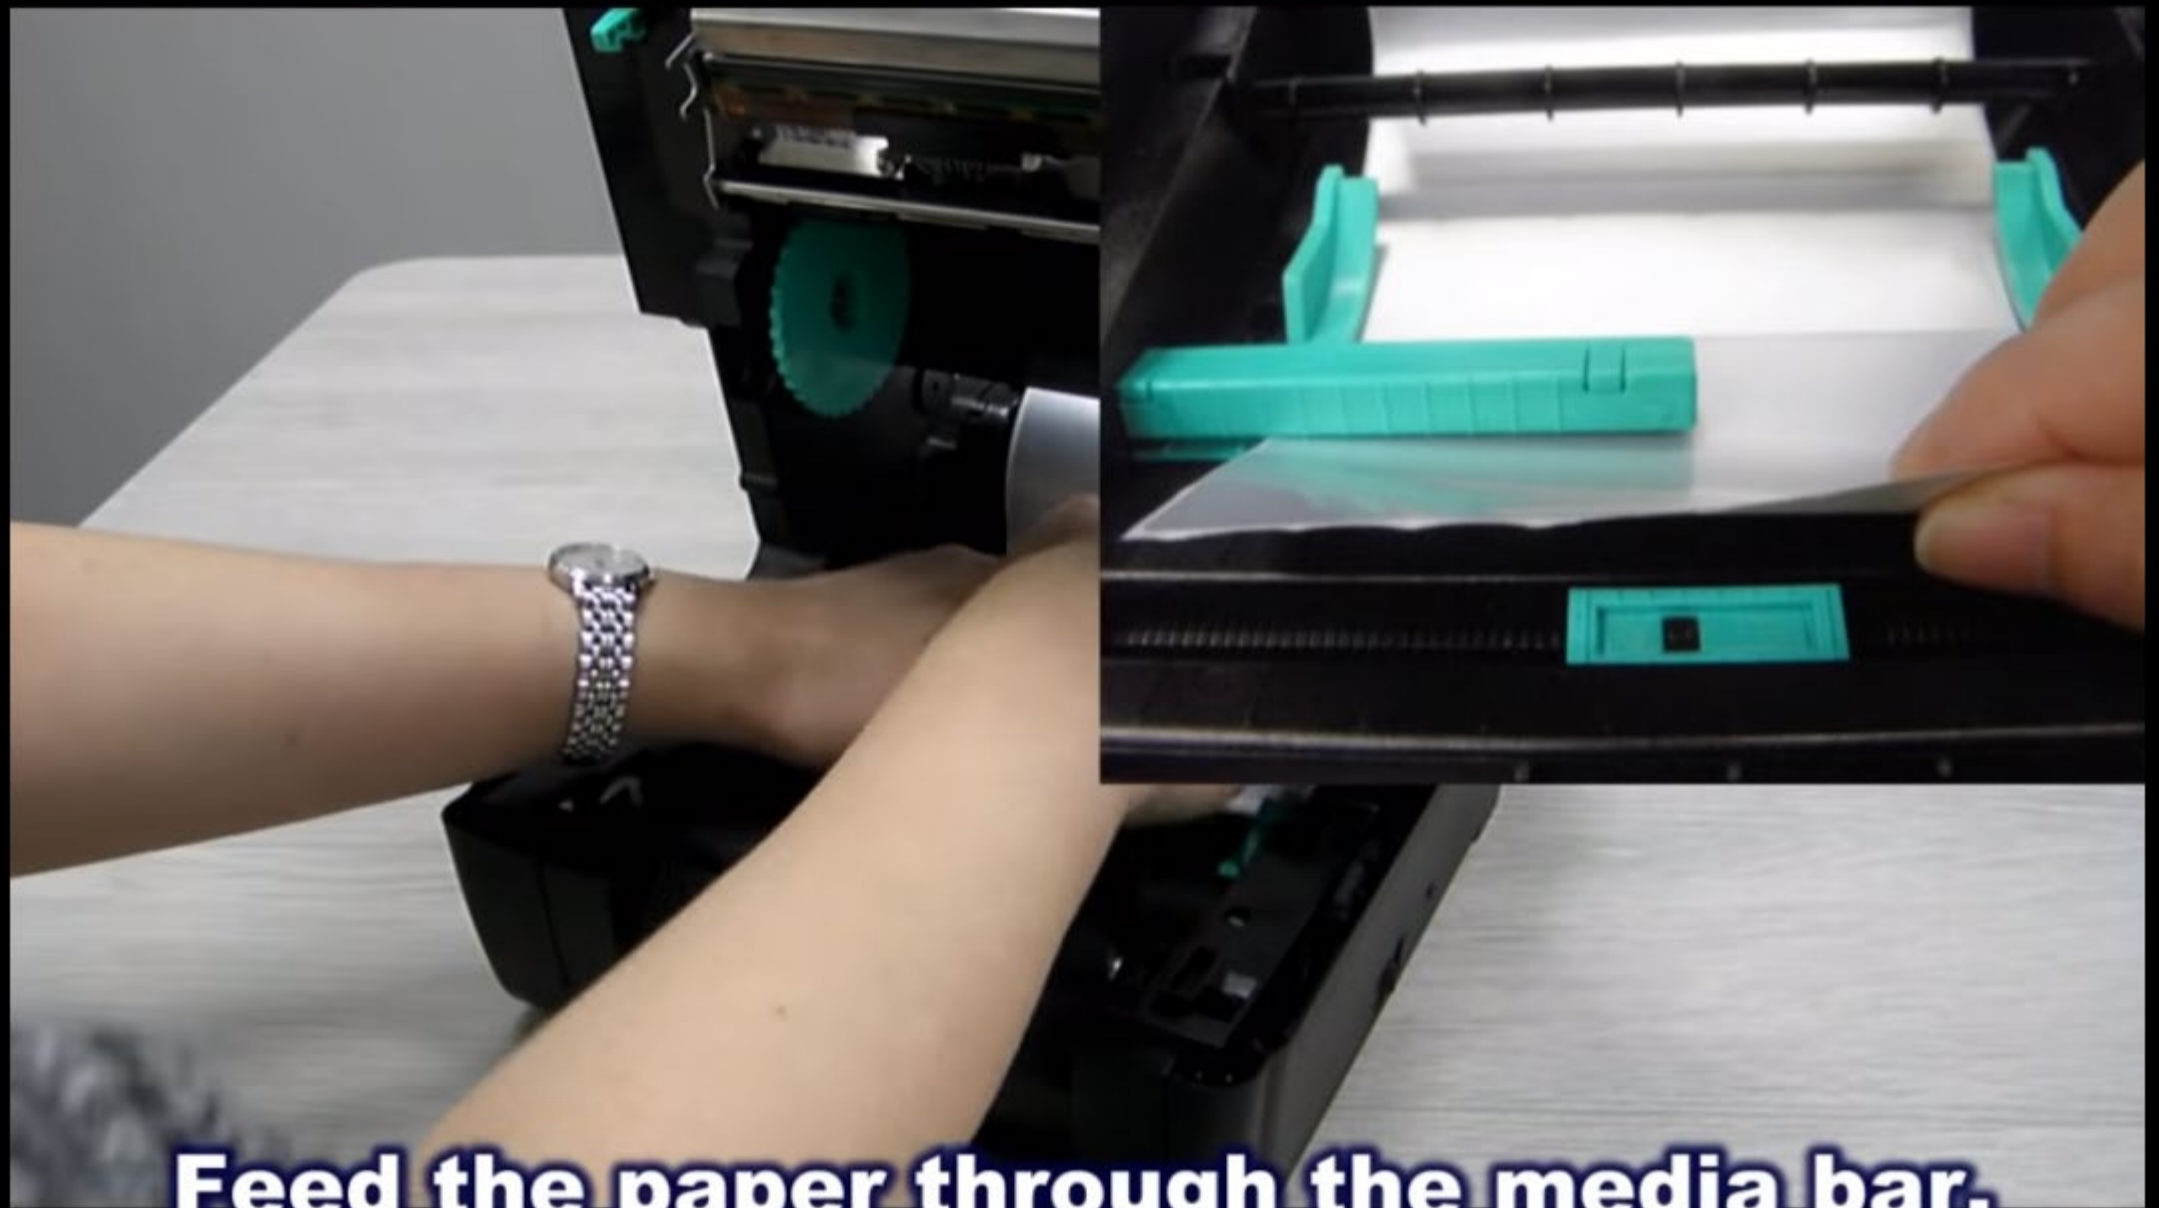

Place the paper roll onto the paper roll mount.

Place the paper roll onto the paper roll mount.

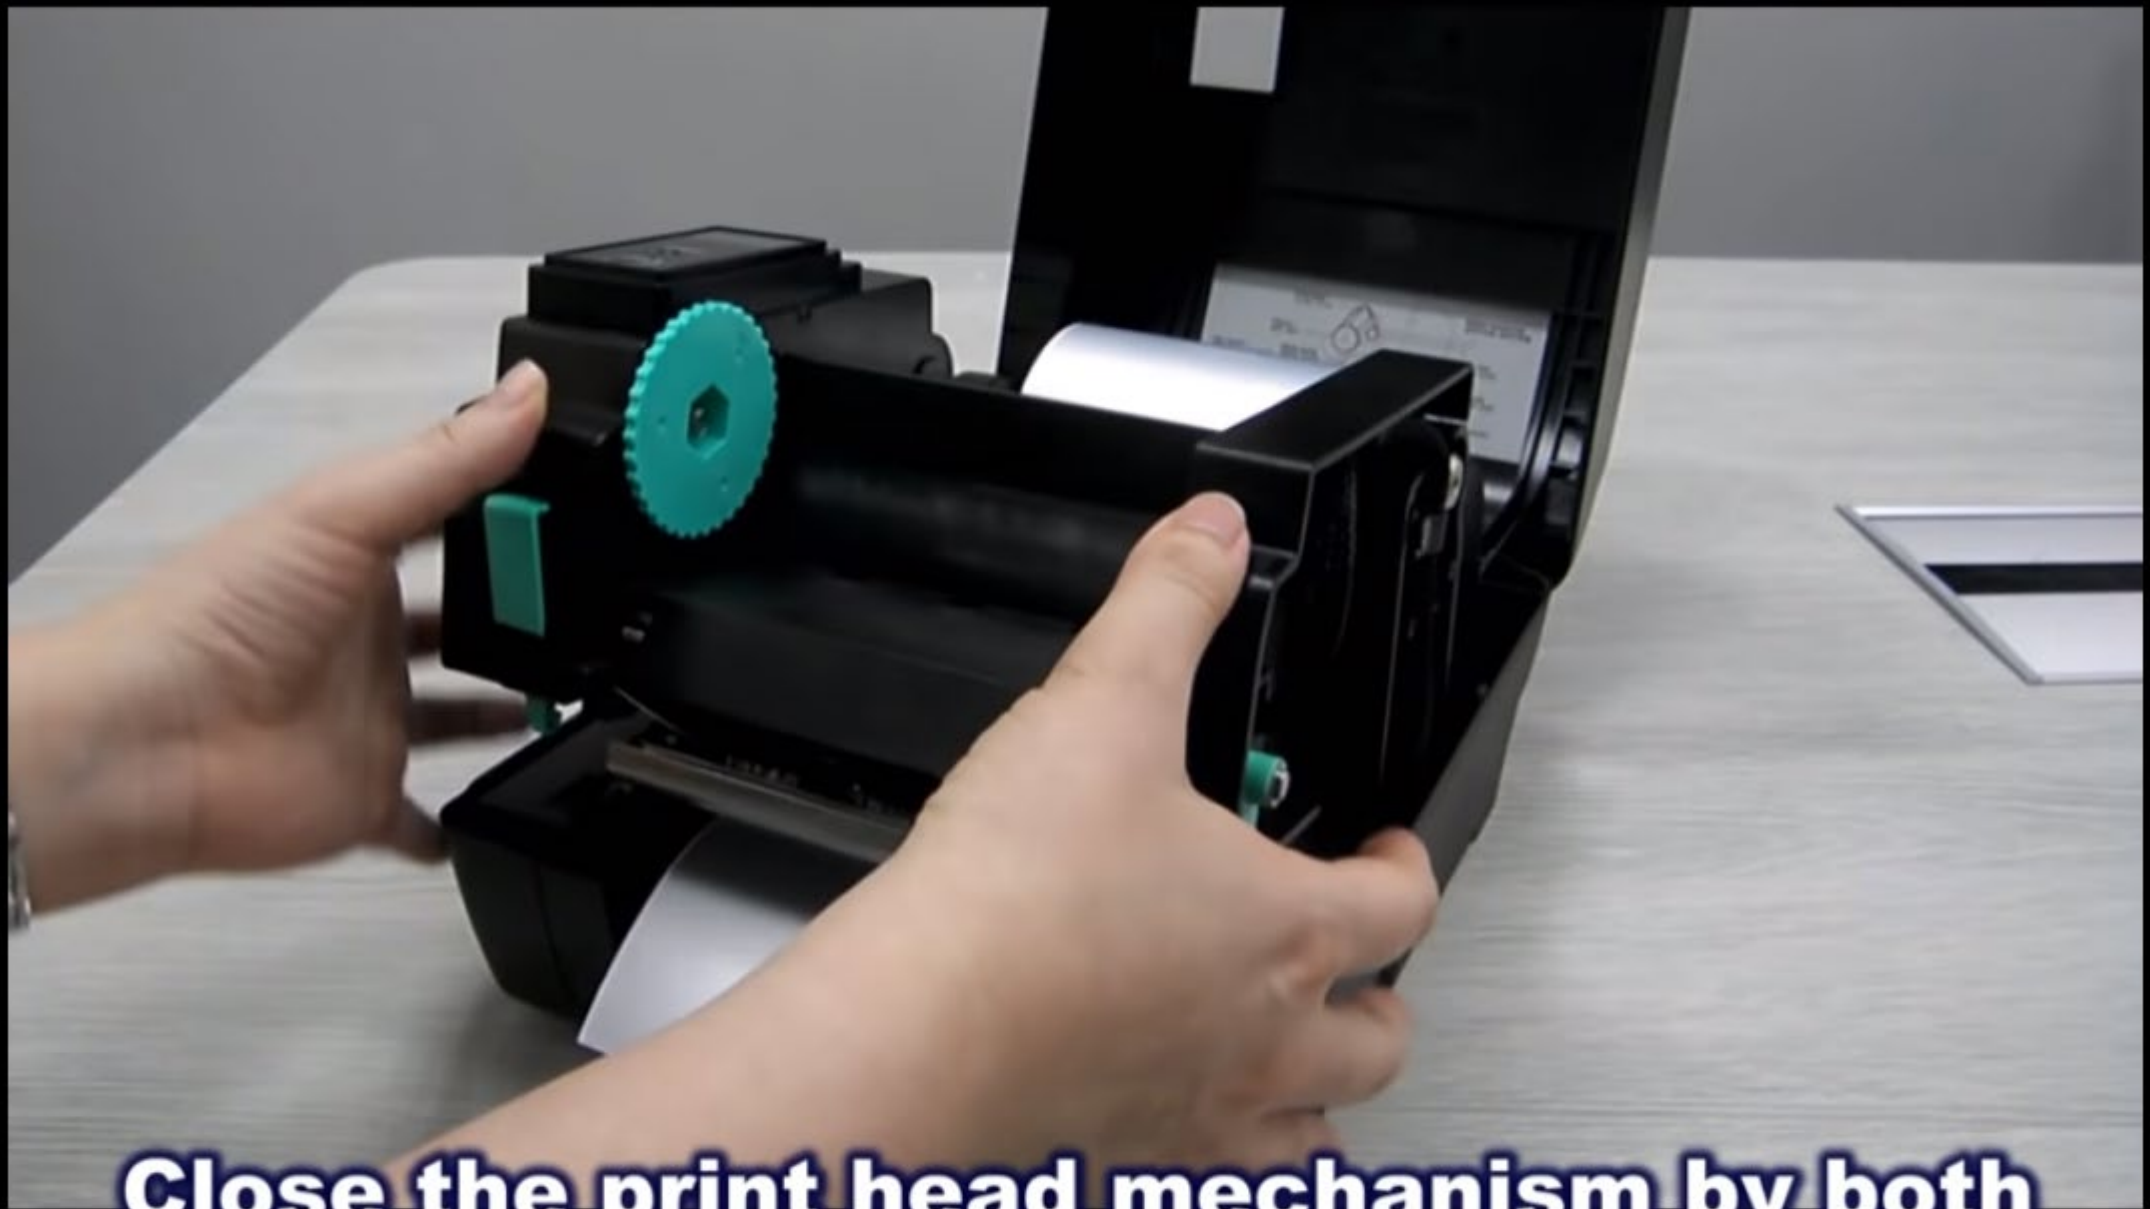

Push the print head release button to open the print head mechanism.

Feed the paper through the media bar, media sensor and place the label leading edge onto the platen roller.

Move the media guides to fit the label width.

Close the print head mechanism by both hands and make sure the latches are engaged securely.

Close the printer cover.

2-Install Software TA210

TA210 Series
